BIOSMART 2023

SESSION: INTERNATIONAL STUDENT COMPETITION

PARIS, JUNE 8TH, 2023-16H30

FLASH PRESENTATIONS

5 min

QUESTIONS INCLUDED

5th International Conference on Bio-engineering for Smart Technologies

We are thrilled to extend an amazing opportunity to Bachelor's and Master's students to showcase their final graduation projects! Join our open-topic competition and present your completed or ongoing projects as a demonstration.

To join, simply submit a title and a brief abstract describing your intended project, either online or on-campus. Your project should relate to one of the conference topics: smart systems, computer vision, Artificial Intelligence, biosignals, Image processing, bio-instrumentation, bionics, biometrics, virtual and augmented reality etc.

We are eagerly looking forward to your submission and cannot wait to see what you come up with. We appreciate your participation!

Important Information:
- Open to Bachelor's and Master's students
- Submit a title and a brief abstract describing your intended project
- Projects should relate to one of the conference topics
- Submit your entry either online or on-campus
- Submission deadline: May 15th, 2023
